In timed only online auctions bidders are automatically informed by email if they are the high bidder, or if they have been outbid by another competing bidder. Lot 10

Woonallee Las Vegas

WEEPL128

10A 10 straws

10B 10 straws

This was the first bull that came to mind when putting this sale together. The best we have and arguably the very best ever to walk here at Woonallee. His story is well known as is his pedigree but the sign of a great one is what he can breed and Vegas has made his mark in that arena. His sons featured in this year's bull sale including the \$50,000 sale topper and were our highest averaging sire group. Extremely easy doing, perfect feet, docile and massive power and performance make him one of our best.

Lot 11

Woonallee BHR Tornado (P) WEEPC120

10 straws

Tornado is a true breed legend and has been our go to for so many years. His semen is now getting low and this is the last we will offer. The true testament to his longevity is that he is still alive at over 12 years of age. A trait leader for milk, scrotal and carcass weight, his figures match his phenotype.

WEEP141

12A 10 straws

12B 10 straws

Notice is a tremendous polled Dirty Harry son out of a truly magnificent female, J47. His first calves are hitting the ground and we cannot express how impressed we are with them. E59 is one of our elite Homo Polled & Homo Black donors and has proven herself time and time again. Her son Tank K90 was sold to Naracoopa Simmentals in 2016 for \$27,500 and has bred exceptionally well. Her daughters have also impressed with Pear M235 being part of our 2017 show team and winning numerous championships. Her 2019 drop Messiah son has been retained for use in our herd. 11 years old and still maintaining perfect feet, legs and udder structure she is a must for those looking to produce their next herd sire. The mating to Messiah is simple, it works, and we can highly recommend it!

Once again we will be retaining a 2019 drop bull out of her and the common theme you are seeing with these donors is that they are the ones which produce herd sires! The mating to Missile is a great one and will complement her perfectly.
